HARRISON CARPENTER CONFERENCES: EMPOWERING!

Carpenter पाठशाला

At Harrison, our commitment to empowering carpenters and fostering collaboration is at the heart of everything we do. Recently, we organized a Carpenter Conference, providing a valuable platform for our esteemed carpenters, affectionately known as 'Mr. Anand,' to gather. This event was not just about sharing insights and celebrating achievements; it was also about strengthening our sense of

community. By fostering this sense of belonging, we ensure that every member of the Harrison family feels valued and empowered. Through such initiatives, we strive to build strong partnerships aimed at collective prosperity, enabling everyone to achieve their aspirations. Our dedication to collaboration and unity highlights our unwavering commitment to the success and well-being of our carpenters, who are essential to Harrison's ongoing journey.

Large-scale carpenter conferences are being organized continuously.

Informal Carpenter Meeting Held by Harrison

An informal discussion was held where suggestions were invited regarding various products and services of the Harrison in the organized carpenter meeting. Appreciation was expressed for the feedback on the office environment, behavior, services, and all kinds of consultations/questions. The information obtained in informal meetings will always be inspiring for us.
